

Mortgage Protection – the basics!

Congratulations, you have chosen your new home and have agreed a mortgage loan through your lending institution. However, the funds won't be released until you have a Mortgage Protection Policy in place!

When taking out a mortgage with a lending institution, it is a requirement that you have a mortgage protection policy in place, to cover the loan in the event of death or serious illness.

Why Mortgage Protection?

The purpose of your mortgage protection policy is to pay off your mortgage should you die or suffer a serious illness within the repayment term of your mortgage.

You are free to shop around for the best rates available and are not compelled to take out a policy with the mortgage lender.

This is good news for you! Zurich offer the best mortgage protection policy in Ireland and our premiums are pretty good too!

What you need to know

Mortgage Protection is designed to provide you with one of the following:

- Life cover that pays a cash lump sum if, during the plan's term, you die.
- Life and serious illness cover that pays a cash sum if, during the plan's term:
 - » you die, or
 - » are diagnosed with a serious illness.

In any of the events above, the cover in force under the policy at the date of claim will be paid out by Zurich, with the intention of paying off the outstanding mortgage amount.

Your commitment

What Zurich asks you to do
